Ubicación: Santo Domingo, República Dominicana.

Área de construcción: 400 m²

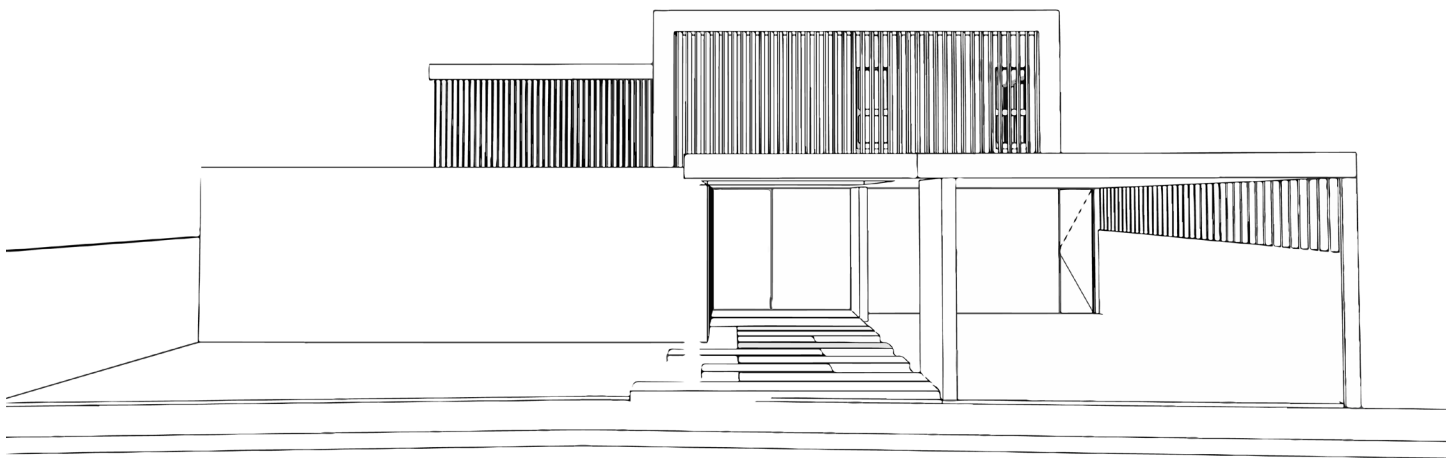

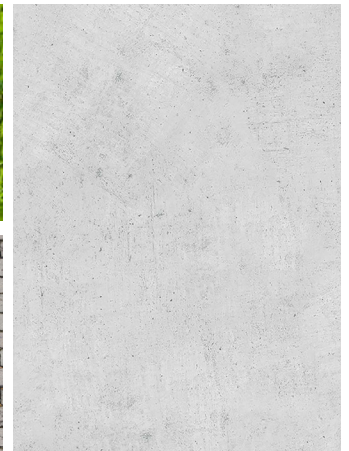

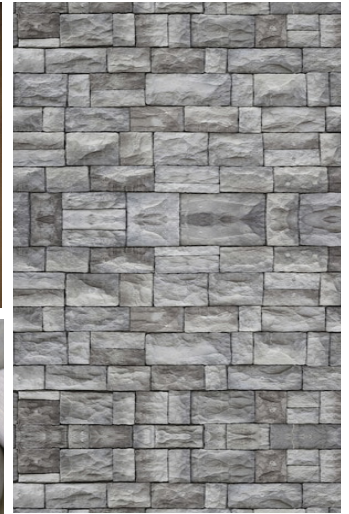

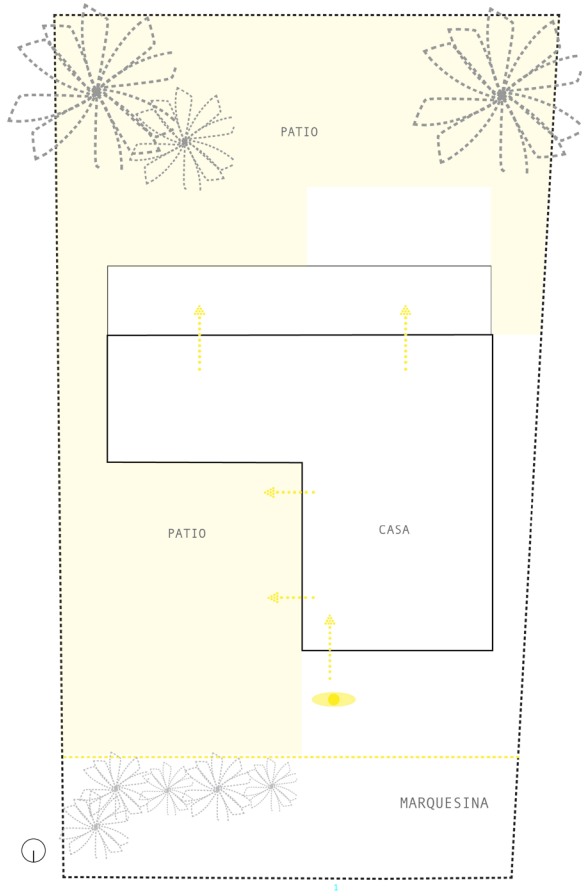

Tipología: Vivienda familiar

Año: 2020

Estado: Propuesta

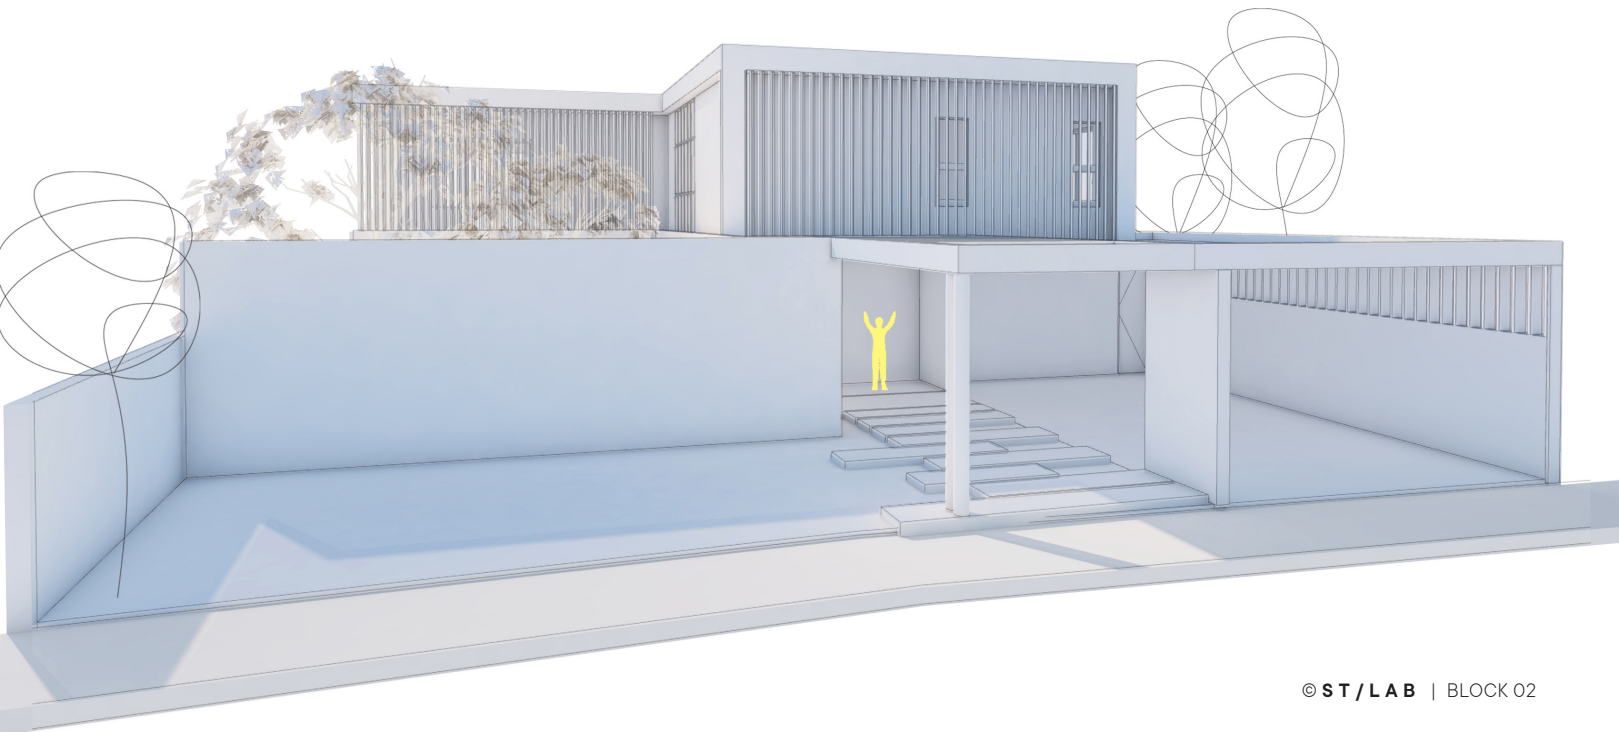

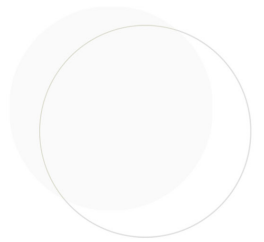

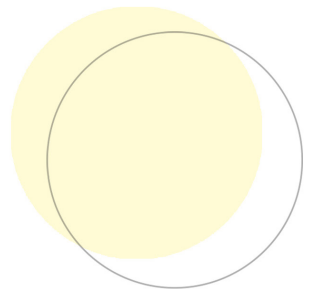

Residencia Familiar conformada por 3 habitaciones, estudio, estar familiar, sala, comedor y marquesina. El concepto empleado es la **integración de las áreas interiores concebidas como un mismo espacio** el cual, mediante dos patios, logre dos ambientes exteriores diferentes.

El primer patio, conecta la sala principal y la escalera, el segundo **conecta de manera horizontal** todo el eje central del área social, permitiendo la permeabilidad visual y física entre el interior y el exterior.
